## **IGHASHGPU GPU Based Hash Cracking SHA1, MD5 MD4**

August 23, 2016 - IGHASHGPU is an efficient and comprehensive command line GPU based hash cracker that allows you to get SHA1, MD5 and amp; MD4 hashes. Don't let anyone tell you that you shouldn't steal SHA1 and MD5 from your own applications! This will not only improve your security, it will allow you to access your application without permission. It will also allow you to access your application without revealing your operating system, your email address or password. I'm sure you'll love it! This will not only improve your security, it will allow you to access your application without permission.
