

Gadwin PrintScreen is one of the screen capture tools that you can use to publish or print with easy-to-use capture tools. It is especially useful for taking screenshots of web pages using WebKit and Chrome, and when capturing a screen using Windows. There is a free version that can be used for Windows, Mac OS X and Linux. It is also available for iOS, Android and the Firefox browser. This is a great feature to get all the tools you need to capture your screen or web page. This utility is not a replacement for standard tools such as Cintu, WinSnap or Pngtap.
