QuickWin is an easy-to-use, free utility that lets you navigate between open application windows in a fast, efficient and easy way. It lists all application windows using the GNOME window switcher, allowing you to switch among them using your keyboard. "For the most part, this is a very helpful utility for people who don't have enough time to really get used to using an operating system or a certain program." Average rating: 5 out of 5 by 3 users Just the thing I wanted! Steve King R-Iowa Republican Rep. Steve King has drawn harsh criticism for past comments about different races and religions. (AP photo) DES MOINES, Iowa -- Iowa's only congressional Republican drew harsh criticism Thursday for his past comments about different races and religions. Rep. Steve King, R-Independence, showed up to his annual "Congress on your Corner" town hall at the State Hyena Cafe with his head wrapped in a bandana. King is a frequent target for criticism from the Democratic Party and liberal advocacy groups. However, some conservatives and Republicans have defended the congressman. But King's appearance on Thursday was the first time some of his past comments about race

and religion surfaced at his town hall. In one clip shown at the town hall, King is speaking with a man who identifies himself as a Muslim. King asks how the Muslim feels about the West's view of Islam. "You're a Muslim-American and you live in Dearborn, Michigan. How do you feel about Western civilization?," King asked the man. "I feel like I'm a part of it. I feel like I grew up in it. And I was raised on it," the man said. The crowd applauded and applauded until King aa67ecbc25

QuickWin shows you all open windows and makes it easy to switch between them. The program shows a list of all open windows, and it's possible to switch between them using the keyboard's arrow keys or several shortcuts. Each open window's title, alias and number are shown in the title bar, and QuickWin remembers each window's shortcut key so it can be used in the future without entering the hotkeys each time. When a window is selected, the window's title, executable name and alias are shown in the title bar. You can also filter the list by window number, window alias, or window name. Where to Get QuickWin Although it can be downloaded for free, QuickWin has a donate option. If you want to try the software, you can do so by clicking the following button and choosing the amount you wish to send, or you can always look for a more permanent solution. Where to Find QuickWin Source For more information, we recommend that you check out the documentation on the program's Sourceforge page. QuickWin Comparison In addition to the shareware QuickWin, there are also free versions of the program available online. Here are two suggestions. Foxy - It displays the open windows in a sortable grid that automatically scrolls down to bring the window you want to switch to to the top. It supports sorting and filtering, and you can set hotkeys for all the columns. Mozilla - This application was designed to be used with Mozilla Firefox, and it will work with any other browser that supports window switching. It can display the open windows in a similar grid to Foxy, but you can also use shortcuts to quickly switch to a specific window. This helps to support WindowsXpTech and other websites with costs for running this site. Article Summary: These days, there are many different ways to switch between windows quickly and easily. I was under the impression that there wasn't anything better than the Alt-Tab function, but I was wrong. By using this software, I found that I could quickly switch between many windows without having to use a keyboard, and it worked for me. It was a simple but effective solution that saved me a lot of time. There are also plenty of free applications available, but you have to look elsewhere for
