**What's new in Elden Ring:**

... It's always amazing to see the things that are going on behind the scenes or what kind of world these games are made in. Im very excited for the next Portal as after finishing Portal 2 I felt that Portal 1 was.. a bit boring and nothing special. But Im pretty excited for Portal 3. Got caught up in the hype and got Portal 2 for \$10 on some Black Friday sale recently. They will be releasing a free update next week to bring... I'm guessing you guys want me to leave off the past tense, but I can't help myself. So I guess I could throw this out there and ask if any of you guys are catching?

... Hello. I always check this site regularly to see what's going on in the great world of gaming. Recently though there has been absolutely nothing happening and it is making me wonder why. So it's occurred to me that something going on wrong in the great world of Portal that the developers have forgotten about is likely to be the reason why there isn't... I don't know if anyone is really keeping tabs on how the Portal franchise is doing, but its been a pretty steady trickle of posts here and not a ton on other forums. So I guess its safe to say that somethin might be up with any sort of recent news and general Portal fun.

Behold the Darkest of Tales as yet! Stay at your appointed stations and preps your core.

I'll be out of bounds on the webz today / later.

Cue pergrif 'n vertigo!

... So I've been farming Goro-rs and just found out today that they randomly drop consumable Gords which allows you to become increasingly high level (10 level) portals. They also drop gems which you can use to equip gear which boost portal attributes... Today I heard that the community pushed Valve to the open alpha for portal soon and now it seems they have started. I think Portal is getting better each and every update, very creative and fun. It's like the Portal 2 beta but the "Weapons and Consumables" system may be a bit gimmicky. (Note: I have no clue what updates or additions there will... Out from the new version of Portal; Guns and Gear
