NPL, Developer of Shadow of the Colossus, "To be honest, I am thinking about a battle system similar to Cosmo Breaker, from a conceptual view."

"Ours will be much more dynamic than the previous system and you will be able to slash them rapidly with a slash attack. We want to make it realistic."

"We also want to be able to bring all these elements to life. For example, the stronger you get the player will be able to use all-natural attacks and attacks of a supernatural nature as well."
