Early development footage shows how the new gameplay engine focuses on delivering gameplay that's more realistic, reactive, and instinctive. Check out some more screenshots in the gallery below.

Saturday, 5 July 2009 Bitter Pudding Almost every time I cook a dessert I spend a lot of time struggling to find that elusive sensation - texture. The dessert must be light (but not too light), of good flavour, and most important it must be chewy. But, most importantly, it should be good for you too. Well how hard can that be? I mean who can resist a dessert made with apples and walnuts? Well I guess this dessert is a success. It is delicious, but doesn't have an overwhelming pudding-y texture. It's crunchy, and it's creamy. This recipe is from the Cream Tart 'Cookbook. But, it is a 'bitter' pudding, so I have changed it for a sweet one. Cream Pudding 3 cups apple and walnut filling 4 cups apple juice (I use apple juice with added pectin for thickening) Cook the apple and walnut filling (in little patties in the oven, or in a microwave for about 10 minutes.) Add apple juice when the filling is cooked, and thicken with the pectin. Top with whipped cream or ice cream if you prefer, and enjoy!

#### Features Key:

- Everything you've loved about FIFA since its release is still being added to in this latest installment, as EA continue to pump it out on the PS4 and XB1. Who'll take the crown?
- And just for 4K-shooter fans, the Xbox version will also support HDR now.
- We can also confirm that PS4 Pro users can see improvements, such as framerate boosts on the Pro and the Resolution Booster effect is now available on Pro with 4K, which lets you see just what a high-res game can do.
- FIFA's gameplay draw on newly developed "HyperMotion Touch" gameplay in some key areas, such as passing, dribbling and shooting, meaning you can watch and feel the power of every move as you play. Physically-simulated dribbling and goal scoring brings a new dimension to some of the best-loved moments from Ultimate Team and Player Career, with more ways to progress and immerse yourself.
- For the first time in a FIFA game, become an organisation during your career or within a new community mode. Lead a team, register it at an official FIFA international or community competition, and develop the ultimate squad with all-new modes to inspire the creative side of your brain. Community competition then becomes a key part of your game as the studio also introduces Leagues, a fan-driven mode that will inspire creators to dream up custom goals and free-kick challenges during the off-season.
- New features are also included that go beyond FIFA's world-class sports simulations: opponent scouts use in-depth profile information like speed and acceleration to predict player movement and where they will look to receive the ball, while player fatigue is dynamically calculated to reduce the frequency of tired movements. This gives you more control over what's happening on the pitch even as you play, with thoughtful decisions informed by a refined AI intelligence. A brand-new player control system makes for more accurate player controls, with a new button-dynamic passing system that allows you to fine tune the timing of your passes.
- In the player's brand-new player/manager career mode, a true Pro can live out the dream of being a real manager, as you craft

#### What's new in Fifa 22:

- **FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay. GOALKEEPERS: FIFA22 introduces "Goalkeeper Reflex Mode" for the keeper. This new motion chip allows for an expanded range of options when in reflex saves. MANAGEMENT: Build your team with AFC on the squad screen, with new Attribute cards that allow teams to play as authentic sides of the world. Chase up-and-coming young stars such as Raheem Sterling and Ryan Sessegnon to join your UCL Pro team. Soccer Historical Moments mode continues with the addition of both the Bayern Munich Pep Guardiola and Iran's great Ali Daei. Player Progress now includes the ability for players to dynamically evolve based on their physical attributes. Adjustable formations have been added to Tournament modes. Regional Tournaments can now be hosted by each of the 6 FIFA World Zones. MANAGER AI: Fine-tuning to the Manager's AI has been made with the addition of Player positioning systems, Player movement, Corner Kicks, goalkeeping saves and when to attack. New AI Challenges have also been added to specific leagues, allowing managers to practice their AI manager skills even further. SUSPEND ABANDON: A new ability to unexpectedly suspend training or gameplay from your game, is now available. Players may be prompted to have their challenge suspended during post-match friendlies, RePlay events, etc. REPLAYABLE TEMPORAL CONTROL: FIFA 22 introduces 'Replay Save Button' technology. This will allow players to replay game saves immediately following a save from a reputable game. Select FIFA 22 introduces 'Save & Replay'. This saves the game to either your Vita's memory, or on the cloud. You can then play the same game again on PlayStation 4. Playstation Mobile already has lots of game titles and they always release month after month. But are they releasing high quality games? Well not really, they game at the lowest range of quality that you can find. That is why i havent got any interest in them but they also did something quite interesting recently. They are now releasing games called Play**
